

We are having another busy week as more and more children return to school.

Class programmes are engaging the children who are very proudly sharing their learning with me. I have heard some very exciting stories and seen some inspiring pieces of art in the last few days.

Spending lots of time in isolation has had impacts on social skills and teachers are needing to remind children how to play together.

There have been lots of reminders about using kind hands, feet and words, as well as teaching how to follow the rules of favourite games. The teacher's input is beginning to make a difference as I witnessed groups of juniors taking turns without adult supervision.

Thank you for responding and working with us to help children interact positively with others.

Road Safety

Can you please talk to your children about crossing the road safely. It is very important that they use the pedestrian crossing rather than just crossing the road where ever they are.

The crossing outside the school gate is patrolled by a teacher and the road patrollers before and after school so this is the safest place for all children to cross. Please be a role model for the children and use the pedestrian crossing too. Have a wonderful rest of the week.

Lost Property

Please name your children's clothes and shoes. With the changeable weather, children are beginning to leave belongings all over the place!

Regards, Kay Cleaver, Principal.
